“

The beginning of 2021 was good to kick off the momentum. There were many things that were rolling towards our target. Unfortunately, the outbreak of the COVID-19 pandemic spread on 20th February, which caused our plans to change. We were forced to go back online and needed to prepare the new strategies. Praise God, we were able to reopen the physical service again in November by following an instruction of the government rules: 3 do's and 3 don'ts.

Our amazing team here worked hard with the new strategies during the difficult time in order to connect and take care of our leaders and volunteers both physically and online.

Let's go and see how God used New Life Fellowship Cambodia to impact Cambodian's lives in 2021!

03 Church Planting

“

Covid-19 challenged us in the way we work, but it was also good because we saw God's grace, new ways of working, and we established what God wants us to do in the next season. We are grateful for new church planting opportunities; new church planters are continually planting new churches. People have accepted Jesus and decided to be baptized and grow as God's disciples. The churches that we already have are still continually developing new leaders to serve in the churches and reach out to their communities. The new Next Generation Leaders continue to grow in serving God. Our churches are cooperating, helping, and supporting one another in this difficult situation.

Through all these things, we see God's grace, miracles, and God's hand over our lives. We will continue to plant new churches, build healthy and strong churches, and raise God's families in our country.
